PROJECTS

Dream Travel

01.2023 - 05.2023 Plovdiv

Drea Travel Platform is a SPA application where every user can find information about specific travel destinations, amd parameters for each of them are also visible. Registered users have the ability to create posts about specific destinations, as well as send an email for additional information to the creator of a specific post.

Technologies : React, Vite, Node.js, ES6, Tailwind, GITHUB.

Soft World

01.2023 - 03.2023 Plovdiv

Soft World Communication Platform is a SPA application where team members can leave messages and comments. To join the communication, you will need to register with a username and password. This will give you access to your personal Profile where you can edit your personal details and also to the Posts page which can also be accessed from the Home page. You can also access the Home page from the Soft World logo.

Technologies : React, Vite, Node.js, ES6, Chakra-ui, GITHUB.

Lia Portfolio

10.2022 - 11.2022 Plovdiv

Lia Portfolio- SPA for presenting my skills through a personal portfolio.

Technologies : React, Vite, Node.js, ES6, Tailwind, GITHUB

Exchange rate

09.2022 - 10.2022 Plovdiv

Exchange rate is a SPA application. The user interface of the application consists of a drop-down menu with the following currencies: USD, EUR, AUD, CAD, CHF, NZD, BGN The default currency selected is USD When loading the application, the exchange rates between all possible pairs of the aforementioned currencies are obtained. The page displays a list of exchange rates for the currently selected currency.

Technologies : HTML, CSS, Bootstrap, GITHUB

Fitness application

08.2022 - 09.2022 Sofia

FunFitNess - SPA fitness tracker, the most important functionality for registered users to set goals and track daily activities on them. User can set their daily/weekly/monthly goals and track their progress. The project was created and built by a team of three

members. It was a great pleasure to participate and build on our skills from the previous project.

Technologies : React, Node.js, ES6, MUI, Firebase, Git.

Forum application for electricity car

08.2022 Sofia

An electric car SPA - SpeakEC where the basic functionality for registered users allows them to create posts, add comments and like or dislike the things they like or dislike the most. The project was created and built by a team of three members. Support and respect are fundamental to our teamwork.

Technologies : React, Node.js, ES6, MUI, Firebase, Git.
